

## Graphics/Web Designer

We are currently looking for graphics/web designer to join our creative, fast-growing team. Most of the work is related to web sites and web publishing; however, this is **not** a web developer position. Knowledge of web technologies is preferred but not required. Knowledge of programming languages is not required. Position focus is on graphics design such as logos, page templates, themes, letterheads, PDF documents, motion graphics, and Flash animation.

### Job description:

- Design logos, web page icons, page templates (both printed and web pages), and themes.
- Design motion graphics such as Flash advertisements, splash page, and banners.
- Graphics design of PDF documents such as user guides, brochures, presentations, etc.

### Requirements:

- At least 1 year of professional experience as graphics/web designer. Preferred experience with major web design or advertising agency.
- Strong experience with common image formats: GIF, JPG, PNG.
- Expert knowledge of Corel Draw, Adobe suite, Dreamweaver, Fireworks, and other popular image suites.
- Strong experience with Macromedia Flash.
- Strong motion graphics skills (animated GIF, Flash animation).
- Experience with Adobe Acrobat (**not** Acrobat Reader).
- Knowledge of CSS and HTML.
- Knowledge of web technologies preferred but not required.

### How to apply:
